TECHNICAL DATA SHEET

H40 SUB H20 + SUB H20

SUB PRO is the innovative modular **element made of recycled plastic**, used for the construction of light weight concrete two-way slabs.

This new element has been **completely redesigned by PROJECT FOR BUILDING** to be more efficient in replacing traditional brick and polystyrene lightening elements.

This system is suitable for the construction of flat slabs thanks to conical lifting feet. The soffit is automatically flat and ready for levelling, with no need for false ceilings.
